About SIGKDD Explorations

Explorations is published twice yearly, in June/July and December/January each year. After the first two volumes, frequency may increase to quarterly. The newsletter is distributed in hardcopy form to all members of the ACM SIGKDD. It is also sent to ACM's network of libraries. Additionally, issues are published on the web and are free to the general public (<http://www.acm.org/sigkdd/explorations/>).

Our goal is to make SIGKDD Explorations an informative, rapid means of publication and a dynamic forum for communication with the Knowledge Discovery and Data Mining community. SIGKDD membership is growing at a very fast pace, and with KDD being a multi-disciplinary field, we hope that Explorations will facilitate its fusion and enhance the sense of community. Submissions will be reviewed by the editor and/or associate and guest editors as appropriate. We are particularly interested in short research and survey articles on various aspects of data mining and KDD. Explorations is also a forum for publishing position papers, controversial positions, challenges to the community, product reviews, book reviews, news items and other items of interest to the field. Please see:

Notice to Contributing Authors of SIGKDD Explorations:

By submitting your article for distribution in this Special Interest Group publication, you hereby grant to ACM the following non-exclusive, perpetual, worldwide rights:

- to publish in print on condition of acceptance by the editor
- to digitize and post your article in the electronic version of this publication
- to include the article in the ACM Digital Library
- to allow users to copy and distribute the article for noncommercial, educational or research purposes.

However, as a contributing author, you retain the copyright to your article and ACM will make every effort to refer requests for commercial use directly to you.

Notice to Past Authors of ACM-Published Articles:

ACM intends to create a complete electronic archive of all articles and/or other material previously published by ACM. If you have written work that was previously published by ACM in any journal or conference proceedings prior to 1978, or any SIG newsletter at any time, and you do NOT want this work to appear in the ACM Digital Library, please inform your respective editors and permissions@acm.org, stating the title of the work, the author(s), and where and when published.

The **ACM Special Interest Group on Knowledge Discovery in Data (SIGKDD)**'s primary mission is to provide the premier forum for advancement, education, and adoption of the "science" of knowledge discovery and data mining from all types of data stored in computers and networks of computers. SIGKDD promotes basic research and development in KDD, adoption of "standards" in the market in terms of terminology, evaluation, methodology and interdisciplinary education among KDD researchers, practitioners, and users. SIGKDD sponsors an annual international conference and publishes the bi-annual newsletter *SIGKDD Explorations*. Members receive free access to live SIGKDD webcasts.

The **Association for Computing Machinery (ACM)** is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, full and unlimited access to online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
