

<http://www.kdd2009.com/>

The annual ACM SIGKDD conference is the premier international forum for data mining researchers and practitioners from academia, industry, and government to share their ideas, research results and experiences. KDD-09 will feature keynote presentations, oral paper presentations, poster sessions, workshops, tutorials, panels, exhibits, demonstrations, and the KDD Cup competition.

INVITATION TO EXHIBIT

Join the exhibitors who reap the benefits of marketing to a wide audience of practitioners in industry and research. The conference attracts a large audience from North America, Europe and all over the world, and is an opportunity to showcase your products and services related to knowledge discovery and data mining. Exhibiting at the conference offers opportunities to distribute product, service, and company literature, give demonstrations and carry out recruitment activities.

CALL FOR SPONSORSHIPS

The KDD-09 Organizing Committee invites you to become a sponsor for the 2009 SIGKDD Conference, being held in Paris, France in June 2009. By becoming a sponsor of KDD-09, you will demonstrate your company's leadership in the field of knowledge discovery and data mining to an international audience of key researchers from industry, government, and academia. KDD-09 is the best venue for finding out the latest trends in both academic and industrial research communities, and to exchange information with the field's major participants. The high attendance of industrial and research participants at previous KDD conferences has provided maximum visibility for its sponsor participants.

4 sponsorship levels: Platinum, Gold, Silver and Bronze.

Sponsors at all levels receive complementary registrations, get logo placements and will be invited to provide promotional material such as flyers and brochures for insertion into the delegates' conference kits. Most sponsorship levels benefit from complementary booths and receive recognition as hosts of conference events.
